Instructions

- Overview Video: <https://youtu.be/xlS-nqFfink>
1. Ensure you've followed the lessons to set up your GitHub, git, and VS Code
 2. Fill in the below tasks (note: it'll save as you go)
 3. Once everything is filled in, ensure you click "Submit and Export PDF"
 4. Upload the PDF to GitHub in a Module1 folder
 5. Find the downloaded PDF and move it into the location of your local repository folder (don't use the Github upload option as we want to practice the git commands)
 6. Use `git add .` to track all file changes (i.e., the PDF)
 7. Use `git commit -m "Uploading M1 PDF"` to record the change and provide a meaningful message
 8. Use `git push origin main` to move the changes to the remote repository's main branch (Note: Future assignments will have a dedicated branch name for their work)
 9. Take the same PDF and upload it to the Canvas submission

Section #1: (10 pts.) Tasks

Progress: 100%

Task #1 (2.22 pts.) - Screenshot of VS Code Extensions for this class

Progress: 100%

Details:

- Ensure you have the following extensions
- Java (Oracle's, RedHat's or any other valid one)
- WakaTime
- Git Lens

I showed all extensions at once

Saved: 9/14/2025 11:28:15 PM

Task #2 (2.22 pts.) - Screenshot of WakaTime Setup

Progress: 100%

Details:

- Visit the WakaTime site
- Click the "Projects" tab and find your repository and select it
- Include a screenshot of the top part that shows the overall time and the repository name
- Scroll down and screenshot the bottom portion that shows the individual files/branches and include that. (You won't need to capture the visuals)

after I added the WakaTime API key to vscode, it synced up

Task #3 (2.22 pts.) - Demonstrate that you have the JDK available

Progress: 100%

Details:

- Run `java --version` in the terminal
- Run `javac --version` in the terminal
- Record the output (both should be the same version and yield no errors).

⇒ Task #5 (2.22 pts.) - Reflection

Progress: 100%

Details:

- Did you have any issues/problems this module? If so, what were they and how did you solve them?
- Did you learn anything new this module? If so, provide some brief details.
- If both answers were no, briefly explain your prior background.

Your Response:

I had an issue running the command `java -version` and `javac -version`. Turns out the original zipped folder did not have the `java.exe` program in it. I had to redownload the package and unzip it again. I have had IT202 already, so this is a refresher for me, although it has been a year. I hope I don't have to relearn too much!
